

MIRKA

The Compact Electric Random Orbital Sander – CEROS 550CV, CEROS 650CV

In line with its aim to provide all customers with access to a total sanding solution, Mirka has developed a new Compact Electric Orbital Sander. Its unique design (patent pending) means it offers superior versatility and performance in a compact, lightweight package.

Being electric makes it conventional and practical to use in any location where a power source is available – even in remote areas or where space is severely restricted. The optimized ergonomics ensure it's comfortable to grip, while the low profile design and very light weight allow easy manoeuvrability and greater control over the end finish.

It requires no special pads and is compatible with Mirka's regular 125 mm and 150 mm backing pads. The ultra-reliable hermetic brushless motor is powerful enough to maintain a constant speed under load. It is also virtually silent in operation and cheap to run. It has few wearing components so the need for maintenance is minimized and its lifespan is long.

Application areas

The Compact Electric Random Orbital Sander is ideal for a multitude of sanding and polishing tasks – from timber and gel-coats to automotive finishes.

TECHNICAL SPECIFICATIONS

Technical Data	CEROS650CV	CEROS550CV
Power	400 W	400 W
Mains Voltage	90–240 VAC	90–240 VAC
DC voltage to sander	22 VDC	22 VDC
Speed	4,000–10,000 rpm	4,000 – 10,000 rpm
Orbit	5.0 mm	5.0 mm
Size of backing pad	Ø 150 mm	Ø125 mm
Weight	920 g	870 g
Degree of protection of the power	□ / I	□ / I
Degree of protection of the sander	◇	◇

When it's Mirka, great things really do come in compact packages!
